# Canvas Parent
Basic Setup

Canvas Parent connects you with; your child's learning, the school calendar, due dates for assignments, newsletters, Qkr! for the canteen, Roll Call for buses and more. So, how do you access all of this?

When you first open the Canvas Parent App, it will take you to an Overview of your selected child's subjects, in addition to the Parent Portal at the top of the list.

When you select a specific subject to review your child's progress, the view on the Canvas Parent App is limited to their Marks and the subject overview (called a Front Page).
